50 SERVICE AND TRAINING ►

13

The right machine for every application

OFFSHORE & PORTS

- On board assembly and loading work
- Port logistics, ship loading and unloading
- Special applications

Offshore and port cranes are exposed to the harshest of environments. Our cranes are specifically tailored for offshore use and meet stricter safety regulations: offshore load charts in the LMI specially adapted to the ship, seawater-resistant paint and the attachment of additional ballast ensure, among other things, that operations on deck are safe and reliable.

WIND POWER

- Service crane
- Maintenance work

The construction of wind farms is logistically challenging and requires auxiliary cranes that are extremely mobile and have a high load capacity. Our cranes impress with their ease of transportation and in Pick and Carry applications, where they can move whilst carrying up to 100% of the maximum load capacity.

BRIDGE CONSTRUCTION

- /// Precise lifting of the heaviest loads
- /// Traveling with loads of up to 100 %

Our cranes offer the perfect combination of power and mobility for complex projects in new or replacement bridge construction. They move safely under load, carry out fast and effective lifting operations and offer outstanding stability thanks to wide-gauge undercarriages – qualities that impress in any infrastructure project.

ASSEMBLY WORK

- /// Working on narrow construction sites and excavations
- /// Pick and Carry tasks
- /// Precise positioning of components

The demands placed on the cranes that move the components are just as varied as the construction applications. Our cranes move across challenging ground conditions without the need for disassembly. Thanks to Pick and Carry, components can be unloaded from the transport frame and assembled on the structure in one movement.

STANDARD AND SPECIALIZED CIVIL ENGINEERING

- Sheet pile installation and dismantling
- Drilling and leader operations

SENNEBOGEN cranes are the be-all and end-all when it comes to specialized civil engineering. They are optimized for cost-effective transport and can be configured to customer specifications, tailored to the respective attachment in collaboration with the attachment manufacturers. The powerful hydraulics, and large-scale pipes and valves ensure the best efficiency.

RENTAL

- Optimized for transport
- Ready to be put into operation
- Long service life and value retention

Crane rental companies particularly appreciate the very low total costs of ownership of SENNEBOGEN crawler cranes, thanks to their optimization for easy and cost-effective transport, flexibility on the construction site, as well as reliability and value retention, even after many years of heavy use.

01 ECONOMICAL TRANSPORTATION

It is not just with procurement and operating costs that companies can make cost savings. Astute contractors know that simple and economical transportation between construction sites is an important factor, too.

Compact

Low transport widths and weights guarantee cost-effective transport.

Cost-efficient

All attachments and lattice mast segments are optimized for container transport.

Independent

Thanks to the self-loading and self-assembly systems.

02 ASSEMBLE WITHOUT ADDITIONAL EQUIPMENT AND WITH LESS PERSONNEL

TIME AND COST EFFICIENT

Assembled on site in just a few steps, thanks to the innovative self-assembly system without the need for additional equipment.

03 ROBUST: SAFE LIFTING ON INCLINES

04 FLEXIBLE: MOVE LOADS HORIZONTALLY & VERTICALLY

05 MAINTENANCE AND SERVICE MADE EASY

Environmentally friendly Stage V engine technology

KEEP IT SIMPLE. TECHNOLOGY THAT CAN BE MASTERED.

All service points are clearly arranged and easily accessible.
The SENCON control system supports you with diagnostics.
So your machine is back in action more quickly.

Reliable and practical technology

Stay independent and easily repair
your machine yourself

A central electrical distribution
board and electronic modules
simplify maintenance

06 MODULAR DESIGN: VERSATILE SOLUTIONS

SH: heavy main boom LH: light main boom WS: luffing jib FS: fixed fly jib

SPECIAL REQUIREMENTS? WE HAVE THE SOLUTION.

With the tried-and-tested SENNEBOGEN modular
system, we create the machine that suits you best –
perfectly tailored to your application.

07 BETTER SAFETY. MAXIMUM COMFORT.

Everything in view

Excellent all-round and upward view thanks to large window panes, optionally with FOPS guard and bullet proof glass. The optionally available cab tilt of up to 20° enables direct eye contact with the load.

Intuitive controls

The intuitive **SENCON** control system shows all relevant information and possibilities for action and thus actively supports you in your work with the machine.

For your health

The back-friendly comfort seat, adjustable armrests, joysticks that sit comfortably in the hand, and the optimally arranged controls make daily work as easy as possible.

Pleasant indoor climate

The automatic heating/air conditioning with optimum air flow guarantees a pleasant indoor climate all year round. Noise reduction through sound-absorbing materials and design solutions.

BIG RANGE OF PRODUCTS.
EXCELLENT RANGE OF SIZES.

» "SENNEBOGEN cranes are characterized above all by their extreme robustness, outstanding reliability and manageable electrics/electronics in line with the motto 'Keep it simple'".

DIRK BRACHT, Managing Director
Franz Bracht Kranvermietung GmbH

	1100G	2200G	4400G	5500G	7700G

Transport height	3,324 mm	3,000 mm	3,245 mm	3,200 mm	3,100 mm

50 t CRAWLER CRANE

50 t load capacity

129 kW diesel engine

51 m hook height

120 kN winch

EFFICIENT PARTNER

- ✓ Compact dimensions
- ✓ Pick & Carry capability
- ✓ Powerful: high load capacities and winch traction

BENEFITS

EASY TO TRANSPORT

- ✓ Base machine has 3 m transport width, 30 t transport weight
- ✓ Quick set-up thanks to self-assembly system

MAXIMUM SAFETY

- ✓ Safe use with up to 100% load capacity, even in Pick & Carry mode
- ✓ Sensitive controls
- ✓ Operates on inclines of up to 4°

OPTIONS

rigid cab elevation

8.5 t auxiliary jib

18 m fixed fly jib

Pick and Carry operation; Italy

Ship unloading with rigid cab elevation and mobile undercarriage; Netherlands

Prefabricated component assembly; Netherlands

Loading roof trusses; Germany

Dismantling sheet piles; Italy

80 t CRAWLER CRANE

80 t load capacity

186 kW diesel engine

59.7 m hook height

120 kN winch

BENEFITS

SENSITIVE AND SAFE

- Assembly tasks with millimeter precision
- Pick and Carry tasks
- Telescopic undercarriage:
5 m stabilizing width

FLEXIBLE ALL-ROUNDER

- Lifts up to 80 t
- All-rounder: lifting, transport and assembly tasks
- Works with vibratory compaction equipment as well as on a pontoon

EFFECTIVE

- Powerful engine
- 120 kN winch tensile force and
125 m/min cable speed
- Easy to transport

OPTIONS

Tagline winch

Fly jib

Electronic winch monitoring

130 t CRAWLER CRANE

130 t load capacity

186 kW diesel engine

93 m hook height

160 kN winch

LONG-LASTING & VALUABLE

- High availability and reliability: particularly appreciated in the crane rental sector
- Robust design and easy maintenance

BENEFITS

VERSATILITY

- Flexible lifting and loading work
- Variable lattice boom lengths up to 93 m
- Pick & Carry on the construction site

POWER PACK

- High-performance 186 kW diesel engine
- Telescopic crawler undercarriage
- Cable speeds of up to 105 m/min. with two 160 kN winches

OPTIONS

Building construction; Germany

Prefabricated component assembly; Germany

Wind turbine installation; Germany

180/200 t CRAWLER CRANE

180/200 t load capacity

283 kW diesel engine

104 m hook height

160 kN winch

BENEFITS

IDEAL OVERVIEW AND SAFETY

- ✓ The robust Star-Lifter undercarriage gives the crane a secure footing
- ✓ Can travel under load
- ✓ Everything in view – cab can optionally be tilted and/or elevated

VERSATILE CONFIGURATION

- ✓ Wide range of uses thanks to large selection of boom configurations and modular ballast system
- ✓ Available with 180 t or 200 t max. load capacity

QUICK ASSEMBLY

- ✓ Assembly in just a few steps thanks to the self-assembly system
- ✓ No need for additional equipment
- ✓ Ballast storage device via hydraulic cylinder as standard

OPTIONS

hydraulically elevating cab

luffing jib

75 t rear ballast for 200 t load capacity

Hydraulic engineering; Belgium

Bridge construction; Kosovo

Prefabricated component assembly; Germany

Port logistics; Netherlands

Lifting a cross bar; Hungary

Sensitive lifting of large components; Germany

300 t CRAWLER CRANE

300 t load capacity

321 kW diesel engine

154 m hook height

200 kN winch

BENEFITS

OUTSTANDING STABILITY IN AN INCLINED POSITION

- Operates on inclines of up to 4°
- Extremely robust boom design
- Stabilizer width 8.3 m

EASY TO TRANSPORT

- Telescopic Star-Lifter undercarriage – 3 m transport width
- All components optimized for container transport
- Self-assembly system

INDIVIDUAL PROJECT PLANNING IN LINE WITH CUSTOMER REQUIREMENTS

- For demanding offshore applications
- Use with a leader attachment for civil engineering work

OPTIONS

rigid cab elevation

auxiliary jib

luffing jib

Service crane; France

Bridge construction; Russia

High stability in demanding offshore applications; Netherlands

Ground compaction; Netherlands

Offshore operations; Netherlands

FAMILY BUSINESS

WITH DECADES OF EXPERIENCE –
YOU CAN RELY ON OUR TECHNICAL SOLUTIONS.

Since 1952, we stand for customer-specific mechanical engineering and have successfully established ourselves as market leader in many industries of crane technology and demanding material handling worldwide.

MANAGEMENT BOARD: ALFRED ENDL, THORSTEN RESCH, WALTER SENNEBOGEN, ERICH SENNEBOGEN, ANTON SENNEBOGEN, DR. ANDREAS MAURER (from left to right)

FAMILY SENNEBOGEN: ERICH, SEBASTIAN, ANTON, VICTORIA, ALEXANDER, WALTER (from left to right)

WE STAND FOR

STABILITY & RELIABILITY

Our stable and continuous development leads to the highest level of reliability and performance.

ORGANIC GROWTH AND INDEPENDENCE

For us this means future focus; for our partners and customers it brings long-term stability and security.

A STRONG HERITAGE SECURES THE FUTURE

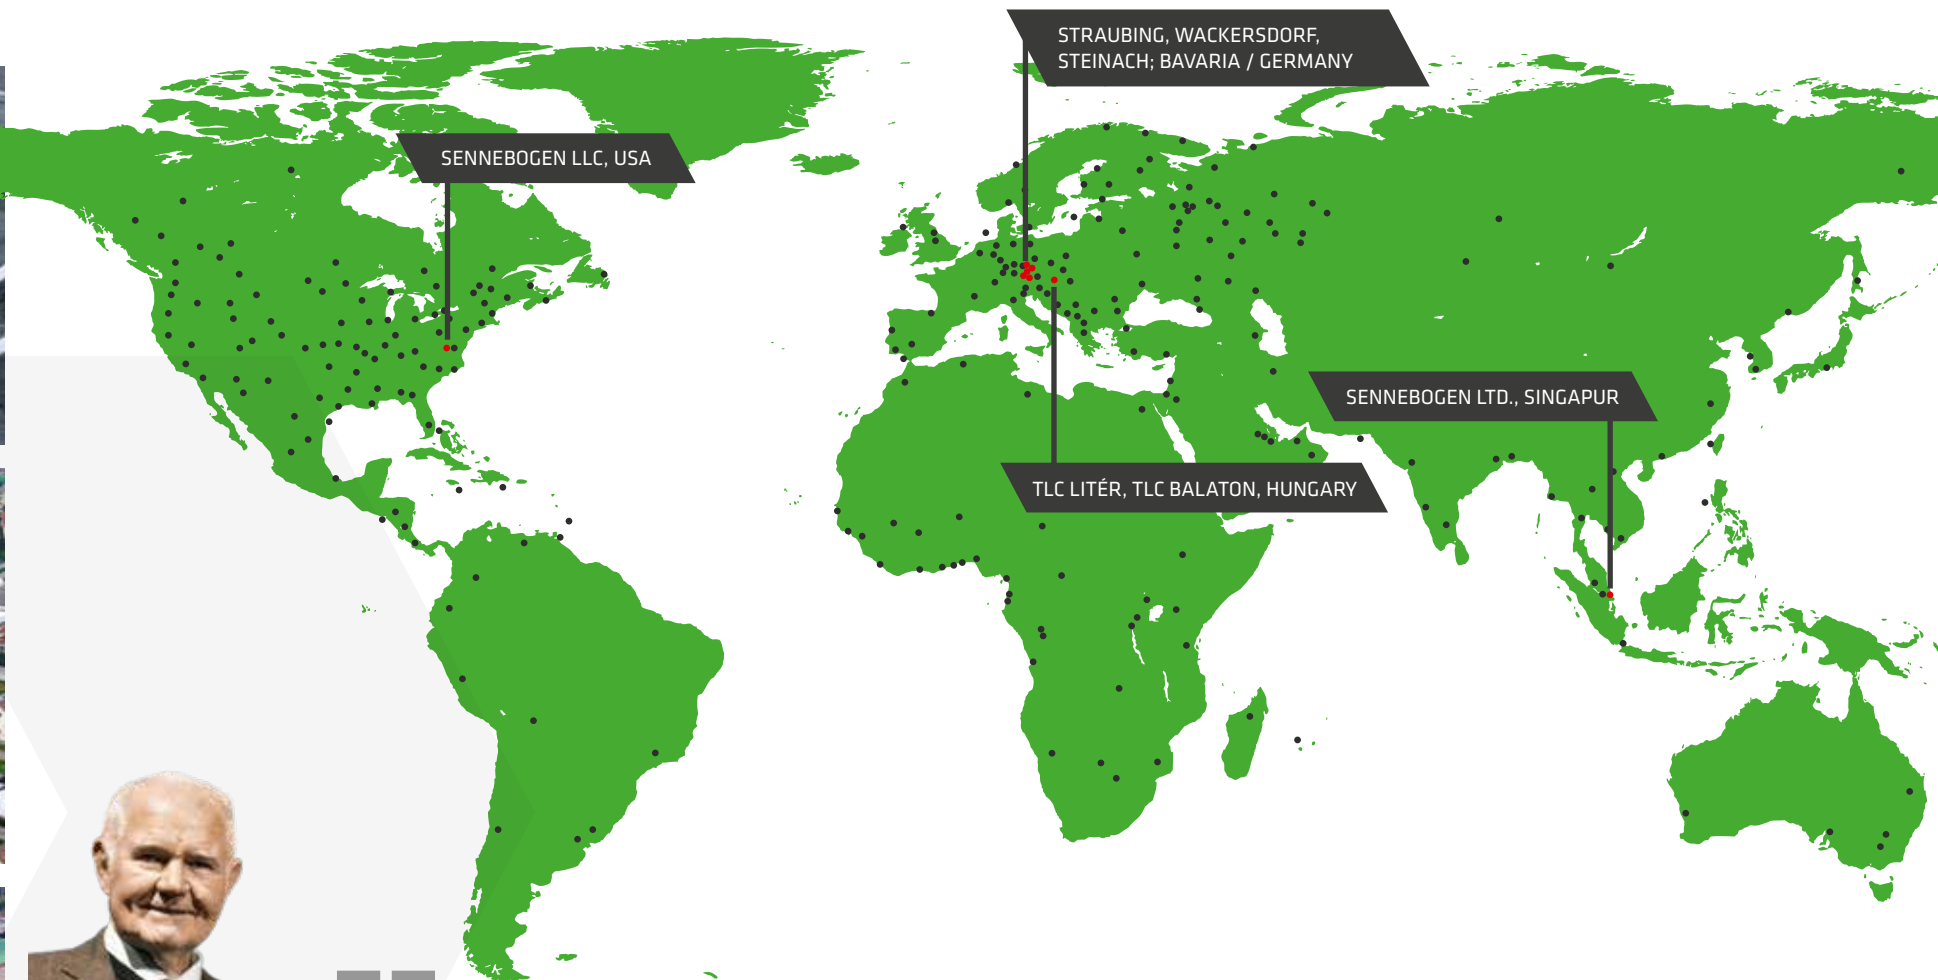

SENNEBOGEN has become one of the leading manufacturers in the market. Continuous investments in our companies secure the advantage.

PROXIMITY TO OUR PARTNERS

The personal contact with our customers, distributors, suppliers or employees supports us in becoming better every day.

WORLDWIDE CUSTOMER FOCUS.

- Locations and branches
- Sales and service partners

“If you don't change anything,
you will not improve anything.”

Erich Sennebogen, 1931 - 2011
Founder

REPRESENTED WORLDWIDE
WITH OUR LOCATIONS AND
SALES PARTNERS.

CUSTOMER SERVICE WORLDWIDE

✓ We support you with any questions online, by phone and on site with our worldwide network.

✓ Our extended warranty packages offer you even more security and service.

SPARE PARTS: GO FOR QUALITY

Excellent delivery performance –
also in urgent cases

Supply of spare parts
to all continents through
our global network

Automated warehouse technology
for more than 30 000
items in stock

Lower service costs
with the use of high-
quality SENNEBOGEN
spare parts

SENNEBOGEN rental

RENT MACHINES FLEXIBLY

Our rental park enables you to rent machines on a medium or long-term basis:

- ✓ for specific projects
- ✓ to fill short-term gaps in your machine park
- ✓ ensure the continued flow of goods

TARGET GROUP ORIENTED TRAINING

for our dealers and customers.

15000 m² OUTDOOR DEMONSTRATION AREA

combines theory and practice in our training courses optimally.

TRAINING CREATES AN ADVANTAGE

we offer a wide range of trainings from basic training to product expert trainings.

OPTIMAL KNOWLEDGE TRANSFER

Through trainings for service and sales partners we ensure the continuous operation of our machines worldwide.

SENtrack

FLEET MANAGEMENT FOR PROFESSIONALS

1. REDUCE SERVICE COSTS

Monitor the machine and its main operating parameters (temperatures, consumption). If key figures deviate significantly from the target value, the user is informed immediately.

2. REDUCE CONSUMPTION

Easily identify and optimize idle times or change set parameters when machines are underloaded to reduce consumption.

3. IMPROVE PRODUCTIVITY

With just a few clicks, you can identify and optimize machine capacity, analyze routes and thus make your processes more profitable.

4. SAFEGUARD YOUR INVESTMENT

Alarm messages inform you about critical machine conditions. In the event of irregular movements, the machine can also easily be deactivated remotely.
